
DX PEDITION TO THE YUKON

NOVEMBER 14-23, 1981

KØHGW and N7DF traveled over 2000 miles of icy winter roads to put the Yukon on the air for the 1981 Single Sideband Sweepstakes. Arriving in Whitehorse, Yukon Territory, on November 14 they found a wonderful group of people in the local radio amateurs. With their help an outstanding transmitter site was acquired and a contest station assembled. Sweepstakes operation commenced under the call N7DF/VY1 with VY1's BE, CC, CJ, and DD assisting. A total of over 900 contacts were made and a new scoring record was set. In addition, the first ever clean sweep from the Yukon was made.

This card commemorates your participation in this operating event.
